EXPERIENCE

Frontend Developer — *Schull Technologies, Lagos.*

JANUARY 2023 - PRESENT

- Collaborated closely with another developer and the UI/UX team to revamp the Talent portal and Management Portal of the Learning Management System (LMS), implementing a fresh design and introducing new functionality.
- Redesigned the user interface (UI) of the Talent Portal and Management Portal, enhancing the user experience (UX) and improving overall usability.
- Built a Zohbo landing page using React, showcasing front-end development skills and expertise in modern web technologies.

Frontend Developer Intern — *Schull Technologies, Lagos.*

AUGUST 2022 - DECEMBER 2022

- Utilized React.js and TailwindCSS to construct adaptable, data-driven components for the Schull Technologies website, ensuring reusability and efficient data management.
- Collaborated with the UI/UX team to facilitate the redesign and development of a revamped version of the company's website.
- Developed and integrated a location-based feature that verifies user location and dynamically presents relevant content based on their specific geographic location.

EDUCATION

B.Sc Physics — *Akwa Ibom State University, Akwa Ibom.*

SEPTEMBER 2015 - AUGUST 2020

- Conducted an in-depth research project on "The effect of solar plasma on Earth at the distance of 1AU" exploring the interaction between solar plasma and Earth's magnetic field at varying distances from the Sun.
- Utilized scientific methodologies, data analysis techniques, and mathematical modeling to investigate the impact of solar plasma on space weather and its potential effects on Earth's
